AI Engineer - AI Developer — Python, RAG, LLM and Cloud; seeking a full-time position (CDI) for October 2026

EDUCATION

ESAIP, Engineering School, France 2022 – 2026
Engineering Cycle (English track) *Specialization: Big Data*

RWU, Ravensburg-Weingarten University of Applied Sciences, Ravensburg, Germany September 2024 – February 2025
ERASMUS Exchange Program

KTU, Kaunas University of Technology, Kaunas, Lithuania January 2023 – June 2023
ERASMUS Exchange Program

PERSONAL PROJECTS

ChartMind — Cross-platform decision-support application Ongoing
Design of a web and mobile financial market analysis application (Forex, stocks and cryptocurrencies), integrating Mistral AI to support technical analysis. *React, Mobile, Mistral AI, product design.*

Grant Copilot — AI Agent for grant research July 2026
Development, as part of the Slack Agent Builder Challenge, of a Slack agent capable of researching federal grants, pre-screening opportunities, tracking applications and generating contextualized drafts. *Python, Slack Bolt, MCP/FastMCP, Mistral AI, SQLite, APScheduler.*

UrdWell — Long-term memory MCP server June 2026
Design of an open-source server allowing AI agents to retain and retrieve context across multiple sessions using semantic search, temporal knowledge management and conflict resolution. *Python, MCP, embeddings, Parquet, automated testing.*

ADQUA — Smart job search tool 2026
Development of a self-hosted tool extracting skills from a PDF resume, scraping job offers from career websites and ranking them locally based on semantic relevance. *Python, NLP, semantic search, web scraping.*

TECHNICAL AND LANGUAGE SKILLS

- **Programming:** Java, Python, FastAPI, APIs, HTML5, CSS, JavaScript, TypeScript, React, Tailwind CSS.
- **AI:** Hugging Face, Ollama, RAG, ElevenLabs, Deepgram, Prompt Engineering, OpenAI, Claude AI, Google Gemini, Mistral AI.
- **Big Data:** SQL, MariaDB, NoSQL, MongoDB, Oracle, SQL Server, Neon, Supabase, Apache Hadoop, Apache Spark, Apache Kafka, Dataiku, Power BI.
- **Tools:** Microsoft Office Suite, Slack, Git, QDrant, PyCharm, Visual Studio Code, IntelliJ, Figma, Google Stitch, Codex, Claude Code, Antigravity, Claude Design.
- **DevOps & Cloud:** GitHub Workflows, Microsoft Azure (DevOps, Web App, AI Foundry), AWS, Render, LiveKit.
- **Languages:** French (native), English (fluent), Mooré (native), German (beginner).

PROFESSIONAL EXPERIENCE

AI Developer April 2026 - Present
ESSCA School of Management, Angers, France

- **RAG & Agent Architectures:** Design, development and maintenance of conversational agents and advanced RAG systems for natural language information retrieval.
- **LLM Integration:** Deployment, orchestration and maintenance of proprietary (OpenAI, Claude) and open-source models.
- **FullStack Development:** Creation of responsive user interfaces using React and Tailwind CSS.
- **Cloud & MLOps:** Industrialization and secure deployment of artificial intelligence solutions on Azure infrastructure.

FullStack AI Developer - Final Year Project (PFE) September 2025 - February 2026
ESSCA School of Management, Angers, France

- **AI Architecture:** Design and development of a conversational agent ecosystem based on a RAG architecture.
- **FullStack Development:** Implementation of the responsive user interface in React from Figma mockups.
- **Cloud & Integration:** Secure deployment on Azure infrastructure and interfacing the solution with internal platforms.

Developer Intern - Development and maintenance of internal applications April - July 2025
ESSCA School of Management, Angers, France

- Update and deployment of a conversational agent.
- Development and deployment of an AI-powered HR directory for natural language information retrieval.

Data Engineer Intern - Study and design of a data lakehouse for CDR data exploitation June - August 2024
Moov Africa Burkina, Ouagadougou, Burkina Faso

- Study and analysis of large-scale data storage systems: Data Warehouse, Data Lake and Data Lakehouse.
- Integration of Open Source data and static simulation of a data lakehouse to observe data storage and formats.
- Integration of CDR (Call Details Records) data and dynamic simulations with continuous stream storage of up to 3 parallel streams.
